

Fascination for Innovation

Schneider GmbH & Co. KG – VPN Usage

VPN Usage

Working with VPN access (Global Protect Agent)

The VPN access is given by the Global Protect Agent. If not (pre-)installed, the latest version could be downloaded at <https://vpn.schneider-om.com> (sign in with Windows credentials).

[Download Windows 32 bit GlobalProtect agent](#)

[Download Windows 64 bit GlobalProtect agent](#)

[Download Mac 32/64 bit GlobalProtect agent](#)

Configuration and Connect

The Global Protect Agent starts automatically after system comes up. Starting the agent by the icon in the taskbar

or start menu/all apps.

The configuration of the client is centralized managed, so there are no further settings necessary. If necessary, enter the following portal address: **vpn.schneider-om.com**

Willkommen bei GlobalProtect

Bitte geben Sie Ihre Portaladresse ein

Verbinden

Afterwards enter the known windows credentials.

Anmelden

Enter login credentials

Portal: vpn.schneider-om.com

Anmelden

By click to **Verbinden/connect** the VPN starts, **Trennen/disconnect** disconnects.
